

# PURE WATER FAUCET

## BLUEWATER PURE WATER FAUCET

Versatile and convenient, the premium high-arc Bluewater pure water faucet provides purified water from a water purifier using SuperiorOsmosis™ or reverse osmosis technology.

Easy to install and easy to use, the single-hole faucet is made of solid food-grade stainless steel, eliminating the risk of metal leaching into the water, which may occur when using other materials such as brass.

Its minimalist design compliments most any kitchen decor.

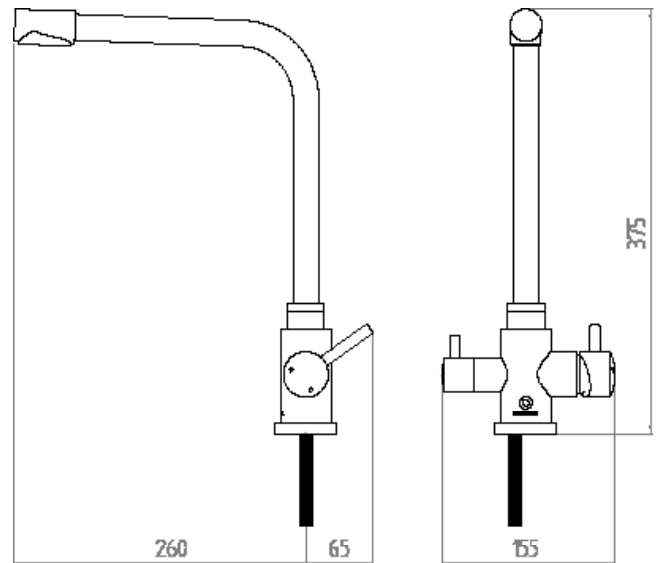

### PRODUCT

Product number	919240945
