

3-WAY KITCHEN FAUCET

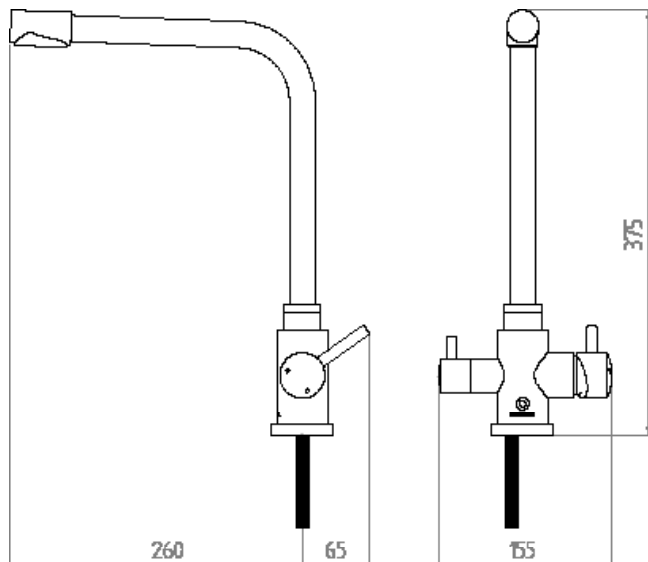

BLUEWATER 3-WAY KITCHEN FAUCET

Versatile and convenient, the premium square-neck Bluewater 3-way kitchen faucet delivers purified water from a separate line connected to a Bluewater under-the-sink water purifier with SuperiorOsmosis or reverse osmosis (RO) technology as well as unfiltered hot and cold tap water. Separate lines ensure no cross-contamination.

Easy to install and easy to use, the single-hole faucet is made of food-grade stainless steel, eliminating the risk of metal leaching into the water, which may occur when using other materials such as brass.

PRODUCT

Product number	919240947
Installation	Single-hole deck mount
